

What are the goals of coaching?

Use strengths!

The young adults receive individual counselling and support to improve their participation in the labour market.

Showing prospects!

Career opportunities are considered, and the performance level of the participants is promoted.

Prevent dropouts!

Individual challenges are identified at an early stage to prevent dropouts from training and employment.

Where do the coaches provide advice?

The coaches' counselling is offered throughout the district in all 24 towns and municipalities. There are contact points in the cities of Rheine, Steinfurt, Greven, Lengerich and Ibbenbüren. In addition, counselling can also take place at home or at other places (for example at the employer's).
